

“We have had a long-term relationship with MedSoft. They have allowed us to remove the more repetitive administrative tasks from our working agenda and devote our time to more strategic HR issues to benefit our business. They are truly customer-focused by providing professional service; they are a first class organization.”

## We do the work. You see the benefits.™

Managing complex benefit programs with the MedSoft solution is a sound decision.

The value of your company is closely connected to your employees. The make-up of your benefits package attracts and retains personnel. Excellent benefit management creates a positive work culture by increasing consistency and reducing stress. MedSoft makes your benefits administration shine, which reflects well on your organization.

## We take away the worry.

We take away the worry of compliance with the complex and ever-changing regulations and deadlines related to COBRA, FSA, FMLA and other universal benefit programs for companies large and small. We step forward and lead your employees through the maze; you maintain focus on the central tasks of running your business and department. Choose us and receive savings because our team catches payment problems and inaccurate account monitoring before it becomes an issue.

## We are experts.

Each member of our team is a professional benefits administrator. Our pros work directly with you and your employees; we don't hand-off these crucial interactions. When you, an employee or former employee contact us, you talk to a case manager who is familiar with your company, policy and legal requirements. We know human resource management well and the emotions involved. We understand the importance of each discussion and the life events that come with needing COBRA, FSA and FMLA. Our core competency is in running accurate and fair programs. You know your business; we know ours.

## We are responsible.

MedSoft's hold harmless guarantee takes on the liability related to compliance. We are fully insured and bonded. That means you never need to worry about tracking different individual timelines, budgets and hard deadlines for employee benefits. We do all the significant work tasks, and you can provide us the basic information we need to get started in whatever forms you'd like (feeds, faxes, e-mail or phone calls). We built our business to remove the burden of internal benefits administration from you—we've addressed the whole process and made it simple for you.

## You succeed.

MedSoft protects your reputation by providing consistent answers and results to your employees or former employees. Delivering the highest customer satisfaction is a goal we share with you. Your organization knows what makes the difference. We know how matters connected to your current and former employees are important. We take care of them and maintain the excellence you have invested so much in developing—our success depends on yours.

“We felt that no one would be able to grasp the complexities of our disparate programs. With all the merger and acquisition activity our organization had undergone in the past, we were unable to be as responsive as we wanted to be. MedSoft's team was able to both understand our situation and anticipate savings because of their expertise.”

The MedSoft team will show you how simple it is for our solution to save you time and money while reducing risk and worry. That's what we are all about.

Call us at 1-888-476-4421 for a consultation.

“MedSoft has been excellent at managing the needs of our COBRA population. They treat our former employees fairly and consistently while adhering to the regulations. MedSoft provides administrative services above and beyond just the basic needs. Our various administration requests are well received and responded to quickly by the MedSoft team. We were so happy with their COBRA administration service that we recently expanded our relationship to include FSA administration. With a number of changes to our benefits this year, it was nice to not have to worry whether our FSA vendor transition would go smoothly for our employees. We knew MedSoft would meet and exceed our needs.”
